Re: Village of Millwood Sewer Project, Knox County

Dear Mr. Flood,

I am writing you in response to your recent letter to me regarding the sewer project in the Village of Millwood. I understand your frustration with the issues on your property related to the sewer project in Millwood. It is also my understanding that you have spoken with Mike Sapp and Isaac Robinson of my staff regarding the situation and that you received a letter on June 20, 2013 with details on our involvement and ability to assist you with your concerns.

I have attached a copy of the June 20, 2013 letter for your review. Although your issues have not been resolved to date, it is my strong guidance to you that you continue to work with the Knox County Commissioners regarding your concerns. It is important that you work cooperatively with the Knox County personnel, in attempting to address your issues that I do not have authority over or regulate.

If you have any further questions, please contact Mike Sapp of my staff at (614) 728-2848.

Sincerely,

A handwritten signature in black ink, appearing to read "Craig W. Butler". The signature is fluid and cursive, with the first and last names being more prominent.

Craig W. Butler
Interim Director

cc: Mike Sapp, CDO/DSW
Isaac Robinson, CDO
